How to Draw a Mastodon

1. First step is to draw two different-sized circles connected. One for the head and one for the body.

2. Next add legs to the bottom of the body and tusks out the front of the head.

3. Widen the legs and add feet. Draw out lines for trunk and tail.

4. Now start to add thickness to tail, tusks and trunk. Add a chin and the neck connection on top.

5. Finish with ears, eyes, and fur.

6. The last step is to put your Mastodon into a habitat and color your creation. Decorate your picture as you wish!

Museum of the Earth is a public education venue of the Paleontological Research Institution.
